RE: Response to Staff's First Set of Data Requests to Antelope Lakes Sewer, LLC
Docket No. SW-20510A-07-0062

Dear Ms. Mitchell,

You requested to know the detailed relationship between Antelope Lakes Sewer Company, LLC, and Mr. Maurice Lee and Analytical Water Solutions in your letter dated 2/4/08. The following information is hereby submitted in response to your request. Analytical Water Solutions has been hired by Antelope Lakes Sewer Company, LLC to assist in the design and permitting process in establishing our Sewer System and plant.

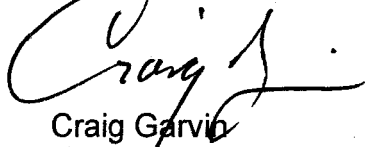

Mr. Maurice Lee is a managing member of Analytical Water Solutions, LLC. It was originally our intent to use Mr. Maurice Lee as our Certified Operator and On-Site Manager as was shown on the original application. However, during the design and planning process it became evident that some changes needed to be made. We determined that it was necessary to bring on a qualified person to not only help us with our sewer system, but also with our current water company operations. Therefore Patricia D. Olsen was contracted to fill this necessity. It is our intent to retain the services of Ms. Olsen through the design, permitting, and operational phases of Antelope Lakes Sewer, LLC.

Mr. Maurice Lee and Analytical Water Solutions have been involved with the design and permitting process for our company, but only in a subcontractor capacity to engineer and design our plant. Mr. Thomas Bourassa, CPA was contracted to

provide the financial data necessary to complete the requirements for the CC & N. Since the financial information gathered and provided by Mr. Bourassa would be needed in the design process it was cc'ed to Maurice Lee of Analytical Water Solutions, LLC.

We sincerely hope this letter clears up any confusion. If there is any further information needed on this matter please do not hesitate to ask.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig Garvin". The signature is fluid and cursive, with a large initial "C" and a long horizontal stroke extending to the right.

Craig Garvin
Chief Operating Officer
Antelope Lakes Sewer Company, LLC
